Objet: Consultation on a new work item on Conformity to Type
Dossier: CIML_comments_CTT/Jean-Francois MAGANA

Dear Mr. Magana,

Thank you for letter ref. BIML 10 No. 465 of June 14, 2010, concerning the proposal of a new work on Conformity to type.

Having in mind the previous activities in the Working group on Conformity to Type we support the proposal from Australia for a new work item aiming at developing an OIML Certification system for Conformity to type.

Concerning the scope of this new work item and the kind of certification system we have a preference to extend the OIML Certificate System to cover both the type evaluation and the conformity of the production, and make the OIML Certificate System a full certification scheme in line with the orientations of ISO CASCO. Particularly for MAA Certificate System (B10), as incorporating a CTT component would be an additional step to OIML MAA Certificate System towards its completion.

We are of the opinion that this work should start as soon as possible in tight relations with the revision of B 3 and B 10.

Sincerely yours,

Dr. Zoran M. Markovic

Subject: Consultation on a new work item on Conformity to Type

> Dear CIML Members,
>
> Australia sent a proposal for a new work item aiming at establishing
> a voluntary OIML system for certifying conformity to type.
>
> This proposal was discussed by correspondence with the Presidential
> Council members, as there are different points of view on this
> proposal.
>
> This proposal is now submitted to your comments with a view to
> deciding on it at the next CIML Meeting in September.
>
> You will find attached a note presenting this proposal, the major
> issues to consider and the comments expressed by the Presidential
> Council members.
>
> I would be grateful if you can send me your comments by the end of
> August so that I can report on your comments at the CIML Meeting.
>
> Best regards
>
